Serving Communities Since 1922

PARAMEDIC TO RN BRIDGE PROGRAM

- Earn your RN while still working fulltime
- Advanced placement credit for your Paramedic experience and course work
- Some distance learning classes are available
- Experience our new Simulation Labs
- Brand new facility

**Classes
Begin
August
2011**

The Paramedic to RN Bridge Program is designed for working Paramedics who will take nursing courses from a modified program of study that meets the needs of the Paramedic enrolled in the Associate Degree Nursing (ADN) program. The program prepares graduates for nursing positions in a variety of healthcare settings. The program combines studies at Mineral Area College with planned and guided clinical experience.

MEET YOUR CAREER GOALS!
